AGENDA

Emergency Medicine Education Conference

Wednesday, May 19, 2021
https://msu.zoom.us/j/97086572674
ID: 970 8657 2674—Password: Emergency

8:00-8:30  E-Sign In: www.scs.msu.edu/s

8:30-11:30  Bias in the ED—Is it Impacting Your Patient Care?
            Just Some Good Clinical Cases
            Deep Learning: The Art of WHY?

About the Speaker: M. Tyson Pillow, M.D., M.Ed

Dr. M. Tyson Pillow completed his undergraduate training at Rice University, and his medical school training at Baylor College of Medicine in Houston, TX. After 3 years of Emergency Medicine Residency training at the University of Chicago, he returned to Baylor as faculty in the Department of Emergency Medicine. He currently serves as the Vice Chair for Education for the Department of Emergency Medicine, and the Medical Director for Simulation and Standardized Patient Programs for Baylor College of Medicine. During this time, he also completed a Masters in Education program at the University of Houston.

Dr. Pillow’s interests focus on education, including education technology, simulation, standardized patients, feedback and evaluation, and bedside teaching. He has received numerous teaching awards, including the John P. McGovern Teaching Award for the Clinical Sciences (2013, 2017), and the Council of Residency Directors National Faculty Teaching Award (2012). He has also delivered multiple workshops on Education Technology at ACGME annual meeting, AAMC annual meeting, and other national Emergency Medicine academic meetings.
