SCS FAMILY MEDICINE DERMATOLOGY PROCEDURES COURSE
Course Chair: Carolyn Nelson, DO
Presenters: Carolyn D Nelson, DO, Tim Lambert, DO
Date: August 1, 2018

GOALS:
1. To recognize and understand the pathophysiology of the most common dermatologic lesions seen in Primary Care.
2. To become knowledgeable in office treatment methods of those lesions.
3. To learn basic dermatologic procedure skills

OBJECTIVES:
1. Participants will recognize common dermatologic lesions presenting to the Primary Care Physician.
2. Participants will apply correct treatment procedure to specific dermatologic lesions.
3. Participants will demonstrate basic dermatologic procedure skills during workshops

ACGME COMPETENCIES ADDRESSED:
PC, MK, PBLI

ASSIGNED-PRE READINGS:
Specific readings are to be completed prior to attending the conference and are posted to the SCS website.

COURSE DESCRIPTION: (8:00am- 4:30pm)
8:00-12:00: Lecture Presentations
   1. Recognition of Dermatologic lesions and treatment
   2. Suture material
   3. Dermatologic Surgery
   4. Use of radiofrequency in dermatology procedures
   5. Slide and Multiple Choice Exam

1:00-4:30: Skills Workshop and Competency Check off
   1. Cryocautery
   2. Punch Biopsy
   3. Shave Biopsy
   4. Curettage
   5. Elliptical Excision
   6. Anesthesia
   7. Suturing
   8. Electrosurgery

ASSESSMENT: Participants will be given both a written test (including slide recognition and multiple choice exam) to assess key medical knowledge, and will demonstrate course skills to receive a checklist signed off on by course instructors.
