OB/GYN Educational Day
Thursday, December 18, 2014
Lansing Community College, West Campus
5708 Cornerstone Drive, Lansing, MI

AGENDA
“George W. Russian Resident Research Day”
Moderator: Richard Colman, DO
Judges: David Magyar, DO – David Moses, MD – David Svrinarich, PhD

8:00 -- 8:30a.m.  Breakfast and Poster Presentation Set-Up
8:30 – 10:00  Poster Presentation (Review by Judges)

Tasha Beenken, DO – Botsford
“What is the utility of diagnostic laparoscopy following uterine perforation in a community setting? A retrospective review”

Denise Carnegie – St Joseph Mercy Oakland
“The compliance of two-hour glucose test in gestational diabetics during the postpartum period in hospital residency clinic setting: a retrospective review.”

Jessica N. Chandler, DO – Botsford
“Correlation Study: Is there an association between low blood glucose and the amount of time in labor?”

Ashley Dupuis, DO – McLaren Greater Lansing
“Utility of routine postpartum CBC after vaginal delivery in a community hospital.”

Austin J. Finklea, DO – Mercy Health
“Comparison of cesarean section rate following term elective induction vs. term medical induction.”

Maggi Forgue, DO – Henry Ford Macomb
“Epidural placement: does timing affect the labor curve?”
Heidi Gaston, DO – Genesys
“Pregnancy outcomes of OB/GYN residents.”

Erin Grey, DO – McLaren Greater Lansing
“Redefining the discriminatory levels for serum B-hCG in early gestation in a community hospital.”

Brig Halpin, DO – Genesys
“Neonatal outcomes for pregnant patients screened for gestational diabetes using the 75 gram, two-hour oral glucose tolerance test.”

Sarah Hellmann, DO – Mercy Health
“Comparison of pelvic adhesion formation following creation or omission of the bladder flap during primary cesarean section.”

Ashley M. Lane, DO – St. Joseph Mercy Oakland
“Breastfeeding in a community hospital.”

Karen Lee, DO – Oakwood Healthcare
“The Impact of Bishop score and labor induction on cesarean delivery rates in nulliparous and multiparous women.”

Elizabeth Lindsey, DO – McLaren Greater Lansing

Melisa L. Lott, DO – St. Joseph Mercy Oakland
“Can uterine artery notching predict adverse perinatal and neonatal outcomes?”

Megan Messmore, DO – Metro Health
“A retrospective chart review comparing IV acetaminophen versus opioid pain relief following a cesarean delivery.”

Rochelle Orr, DO – Henry Ford Macomb
“Cesarean section in residency clinic patients at a community hospital.”

Sara Nicholas, DO – Oakwood Southshore
“Effect of new induction policy on cesarean section rate in nulliparous patients.”
Casey Ramar, DO – McLaren Macomb
“The success of initiating a risk assessment and genetic testing protocol for BRCA related cancers in resident clinic population.”

Emma E. Rodgers, DO – St. Providence Health
“A retrospective cohort study to identify obstacles to immediate breastfeeding exclusivity in an urban community based hospital.”

Shania J. Seibles, DO – Oakwood Southshore
“Augmentation of labor: does early aminotomy predispose to unwanted labor outcomes during elective induction of labor?”

Renee Stevens, DO – Mercy Health
“Is the rise in cesarean delivery at Mercy Health Hackley a result of implementation of the laborist model?”

Colleen Thibaut, DO – Genesys
“Does turning off the epidural in the second stage of labor shorten time to delivery?”

Gaurav Wahi, DO – Garden City
“When choosing an OB/GYN, what really matters?”

Oral Presentations:
10:00 – 10:10 Ellen Cuddeback, DO – Henry Ford Wyandotte
“The efficacy of cervidil versus cytotec on the latent phase of labor in multiparous patients at term.”

10:10 – 10:15 Judges’ Comments

10:15 – 10:25 Samantha Herriott, D.O. – Genesys
“A Comparison between the traditional two-step, one hour/three hour GTT and the one-step, two-hour GTT and the gestational age at diagnosis or exclusion of gestational diabetes.”

10:25 – 10:30 Judges’ Comments
10:30 – 10:40  Ashley N. Perkins, DO – Henry Ford Wyandotte
“Incidence of oral human papillomavirus (HPV) positivity in women with abnormal cervical cytology.”

10:40 – 10:45  Judges’ Comments

10:45 – 10:55  Julie Thompson, DO – St. Joseph Mercy Oakland
“Does a cervical cleanse help to decrease the prevalence of chorioamnionitis in foley bulb inductions and therefore decrease maternal and neonatal morbidity?”

10:55 – 11:15  Judges’ Comments

11:15 – 11:25  Bradley Kasavana, DO – Metro Health
“A prospective, blinded, randomized, controlled study: does performing a paracervical block prior to laparoscopic hysterectomy reduce post-operative pain and expedite time to discharge?

11:25 – 11:30  Judges’ Comments

11:30 – 12:00  Lunch (Provided)

12:00 – 12:30  Award Presentations
